

## ABOUT

---

With a passion for learning and a highly creative background, I am continually seeking my next challenge and looking to grow. I love to create complex things and, in the process, fully understand how they are built. My varied background has given me an acute attention to detail and an appreciation for thinking outside the box.

## SKILLS

---

**Languages:** Ruby(2.x), Javascript(ES5/ES6), JQuery, HTML5, CSS3, SASS/SCSS

**Frameworks:** Rails(4.x), Bootstrap, MaterializeCSS, Familiar with: Sinatra

**Databases:** PostgreSQL, MySQL

**Tools:** Git/Github, RSpec, MiniTest, Capybara, VCR, AJAX, ActiveRecord, OAuth

**Other:** Agile, TDD/BDD, Pair Programming, REST

## CODE

---

**Paleopal** -- [paleopal.herokuapp.com](http://paleopal.herokuapp.com) // [github.com/PenneyGadget/paleopal](https://github.com/PenneyGadget/paleopal)

Food diary web app built in 2 weeks as an independent project.

- ❑ I used the [Edamam API](#) to fetch nutrition data and allow a user to keep track of their macronutrient intake and a journal entry for every meal. The user dashboard gives an overview of each meal and totals for the entire day.
- ❑ Facebook OAuth used for authentication, AJAX calls allow a user to calculate their meal totals before saving.

**Infinite Loop** -- <http://penneygadget.github.io/game-time> // <https://github.com/PenneyGadget/game-time>

A clone of the popular mobile game of the same name, inspired by the Flash game Loops of Zen.

- ❑ Using Javascript(ES6) and HTML5 Canvas, my partner and I created a pattern generator for the game that enables the infinite creation of levels.

## WORK HISTORY

---

**Dream of green, Owner** *Denver, CO* (April 2014 - Present) [www.dream-of-green.com](http://www.dream-of-green.com)
